Here's the coffee for you

Breakfast Blend

MEDIUM ROAST | Crisp & Tangy

Although the gulf between these two types is huge, we think all can agree that our Breakfast Blend is one fine coffee.

It's a gathering of Latin American beans chosen for their sparkling flavor. Kind of like orange juice and the way it dances on your tongue, this coffee has a get-up-and-going charge to it.

But we roast these beans a little lighter than we usually do. So the flavor is lighter-bodied and milder – just a nudge really. What you get is a nice, clean taste with a sunny disposition. Whether your cup is half full or half empty, it's all good.

Dewata Coffee Sanctuary is built to create something that provides more than just a store. We want an experience to remember, a destination that makes you learn and look at coffee differently.

On one side, an iconic coffee store; on the other, an oasis for those who love coffee and interested to learn. Between the two, a delicate equation, a subtle alchemy. That is our absolute starting point.

Our History

Two decades of active investments in Indonesia and counting.

In 1997, amid the Asian financial crisis, Saratoga was established by co-founders who saw both a need to support Indonesia and an opportunity to invest in its recovering economy, establishing it as an active investment company focused on the country.

With over 20 years of active investments in Indonesia, we have a proven track record in the energy, precious metals, and infrastructure sectors. Notable investments include PT Adaro Energy Tbk., PT Tower Bersama Infrastructure Tbk., and PT Merdeka Copper Gold Tbk., all listed on the Indonesia Stock Exchange with a combined market capitalization exceeding USD 12 billion in 2021.

As Indonesia enters its next development stage, the rapidly growing middle class has spurred exponential growth in certain sectors. Saratoga is now focused on healthcare, financial services, digital technology, and consumer goods.
